

# A few tips...

## How to download a book?

- Clic the link that looks like [this is a link to a book](#).
  - Use the RIGHT CLIC PREFERENTIALLY to choose the name and where you want to save the file.
  - In some cases, the LEFT CLIC MAY FREEZE your browser until download ends up.<sup>1)</sup>

## What is the interpreted file?

- THIS IS THE RECOMMENDED FILE: It is the smallest and you can search text for any symbol. It may contain misprints however!

## What is the original file?

- This is a file dedicated to specilaists: it is made of the raw scan of the original. It is heavy and it cannot be searched. It is the reference when one finds a possible misprint in the interpreted file.

## Use the “Back button” of the browser to go back to the book you come from...

<sup>1)</sup>  
in that case clic the “stop page download” button. Then redo download using the right clic.
