This book, dated 1997, is 160 page long and contains about 140 pictures of flowering plants in collection. The pictures are accompanied by short and clear descriptions including references and synonymy. Although dated XXth century, the book is still up-to-date. The genus *sensu lato* includes Rebutia s.s., Aylostera, and Mediobutia (Digitorebutia, setirebutia, cylindrorebutia) whereas Sulcorebutia are excluded.
